Section 1 - General Rules and Regulations**ITEM 115 Berth Reservation, Conditions**

In accordance with Federal Maritime Commission Docket 83-48, (Alaska Maritime Agencies Inc, et al. Port of Anacortes, et al., and Tariff Item 120 in Port of Longview Tariff No. 8), all applications for vessel berth reservation shall be made in the form specified by the Port, and will require the timely filing of the financial responsibility information shown in the Application for Vessel Berth Reservation, completed in accordance with, and otherwise governed by, the terms and conditions set forth below.

- (A) Except where and to the extent waived pursuant to paragraph B below, terms or payment for all applicable Port charges shall be cash in advance. A cash deposit or acceptable security in an amount equal to 125% of the estimated applicable charges will be required to be posted with the Port, six days prior to the vessel's scheduled arrival or at such other time as may be authorized or directed by the Port, but in all cases in advance of actual services rendered. In any case in which a cash deposit has been posted, and excess thereof, after satisfaction of all applicable Port charges, shall be promptly refunded by the Port to the party posting same.
- (B) The Port may waive the requirement of cash in advance as to all or any category or categories of its anticipated Port charges when the party responsible for such charges has been identified by the berthing agent to the satisfaction of the Port, and:

 - 2. adequate security, acceptable to the Port, in an amount equal to 125% of the applicable estimated port charges, has been posted; or
 - 3. the agent requesting the berth, or another entity, in each case acceptable to the Port as credit worthy, has personally accepted financial responsibility for applicable charges.
- (C) The vessel agent or other person requesting reservation of a berth (berthing agent), shall, as a part of the berth reservation process, provide to the extent of his knowledge all information called for on the Application for Vessel Berth Reservation respecting the vessel, its estimated arrival and departure, amount(s) and type(s) of freight to be loaded/discharged, an estimate of amount of each category of Port charges, as enumerated, and party responsible therefor. The submission of this form, signed by the berthing agent, shall constitute the berthing agent's attestation as to the accuracy of the information therein supplied, based upon and to the extent of information made available to the berthing agent at the time of submission; and the berthing agent shall be held personally liable to the Port for any financial loss suffered by the Port as a result of the agent's failure to so report accurately.

Section 1 - General Rules and Regulations

- (D) Should the berthing agent, subsequent to submission of this form, receive information which materially differs from the information previously provided, and which information the agent reasonably believes is not equally known to the Port, it shall immediately notify the Port and, if requested by the Port, promptly file an amended Supplement to Application for Vessel Berth Reservation with the Port.
- (E) All estimates of Port charges are subject to approval and/or adjustment by the Port.
- (F) The Port shall, promptly after receipt of this form, advise the berthing agent as to:
1. its approval or adjusted estimate of port charges, and

Use of Port facilities or service is conditioned upon satisfactory assurance of the Port's applicable charges being paid when due. 3. for all charges on perishable freight, on freight of doubtful value, and household goods.

Where the contract of affreightment establishes the responsibility as between the parties thereto for payment of service and facilities charges named in this Tariff, revisions and/or supplements thereto, such charges shall be borne by whomever shall be determined to be responsible under the contract of affreightment, but the full amount of such charges shall be billed to and paid for by the vessel, its owners, or operators, to the Port of Longview. (B) BERTH ASSIGNMENTS

Berth assignments will be issued at the sole discretion of the Port of Longview to the owners, agents, or operators of vessels for use of a specific berth by a specific vessel.

See Application for Berth Reservation, Item 105.

(C) RESERVATIONS REQUIRED FOR BERTHING VESSEL

The Port of Longview requires that a berth application be submitted prior to the vessel's arrival at the Port and subject to the following four provisions.

1. Berth application must be filed as far in advance as possible or at least seven (7) days prior to vessel arrival.
2. The Port reserves the right to request adequate security, acceptable to the Port, in an amount equal to 125% of the applicable estimated port charge, and refuses berthing until credit worthiness has been accepted or the deposit requirement has been met to the Port's satisfaction.
3. Unless otherwise provided by a contractual agreement approved by the Port of Longview Commission, vessel berthing assignments will be at the sole discretion of the Port. The vessel berthing priority will be established by the vessel's official arrival time at the Columbia River Pilot Station (light vessel). The oldest vessel will have first right to use a specific berth, provided there is no pre-stage operation or other impediment preventing the freight operation from commencing on arrival at the berth.
4. When congestion or other commitments make it necessary for a vessel to complete and clear its berth, the vessel on berth will be requested to work all available overtime shifts at its own expense until loading or discharging has been completed, after which it will promptly vacate the berth. Any vessel refusing to work the necessary overtime shifts shall vacate the berth upon written order from the Port. When a vessel loses its right to a berth by refusing to work overtime, such vessel will forfeit its turn on the berth and will remain at anchor until the next available berth.

(D) OCEAN GOING BARGES

Dockage will be assessed at full Port dockage rates and will be charged on an hourly basis. Partial hours will be rounded up to the next hour. Dockage will begin when the barge ties up to the dock and ends at let go of lines. Lay berth status is

available subject to the rules in the tariff per item 200 (J), and requires prior written permission of the Port. No minimum time requirement.

Section 2 – Dockage

(E) BASIS FOR COMPUTING CHARGES

Dockage charges shall be based upon the vessel's length-over-all as published in Lloyd's Register of Ships. Length-over-all shall be construed to mean the linear distance expressed in meters from the most forward point of the stem of the vessel to the aftermost part of the stern, measured parallel to the base line of the vessel. If the length-over-all of the vessel does not appear in Lloyd's Register, the Port may obtain the length-over-all from the vessel's register, or measure the vessel.

(F) DOCKAGE PERIOD - CALCULATED

The period of time upon which dockage will be assessed shall commence when the first line is made fast to the wharf, pier, seawall, or when a vessel is made fast to a vessel so berthed, or when a vessel comes within or moors within a slip, and shall continue until such vessel is completely free from and has vacated such berth or slip.

After the first period of twenty-four (24) hours, any period of berth occupancy of twelve (12) hours or less will be billed at one-half ($\frac{1}{2}$) of that day's rate. An additional dockage period shall not be assessed when a vessel departs from the Port within sixty (60) minutes of a subsequent dockage period after the first full period.

(G) CHARGES ON VESSEL SHIFTING

When a vessel is shifted directly from one berth to another berth operated by the Port, the total time at such berths will be considered together in computing the dockage charges.

(H) VESSELS REQUIRED TO VACATE BERTHS

Berthing of vessels not engaged in loading or unloading freight shall be at the discretion of the Port of Longview and then only with the express understanding that vessels shall move their position from place to place at wharf or leave wharf at the discretion of the Port when berth is required for vessels with or for cargo.

Orders to vacate a berth shall provide the vessel with a reasonable period in which to comply. In no case shall such order require a vessel to vacate in less than three (3) hours from the time the order is issued and tendered to the vessel.

At its option the Port may affect the removal of a vessel from berth at the time period specified in the order to vacate with all risks, liability and expense for the vessel's account. All costs of extra or overtime labor, pilotage, shifting, tug-hire, linesman or those of any description rising from the requirement of the Port under these rules shall be for the vessel's account.

Section 2 – Dockage

Whenever an order to vacate a berth is made by the Port under these rules and said order is refused or not complied with in the time specified, the Port may assess a penalty dockage rate of twice the published dockage rate if the vessel remains on berth after such order has been issued or tendered to the vessel. Penalty dockage will commence at the time the vacation was ordered.

(I) DOCKAGE EXEMPTIONS

Dockage charges will not be assessed against the following vessels:

1. combat, combat auxiliary, or training vessels of the United States of America or any other nations,
and
2. vessels owned or operated by the State of Washington.

(J) LAY STATUS

Lay berth status is defined as a vessel waiting for a loading or discharge berth and may be granted upon written request to the Port of Longview prior to the vessel's arrival. Lay status will be granted on a berth availability basis and at the discretion of the Port. Such vessels will be charged fifty percent (50%) of the applicable dockage charge per twelve 12 hour period, minimum of 12 hours, rates as shown in Item 205. Lay status shall end two (2) hours prior to the first working shift.

Vessels requesting berth for long term lay status (5 or more days) only may be granted a lay berth on a berth availability basis and at the discretion of the Port. Such vessels will be charged twenty-five percent (25%) of the applicable dockage charge for 24 hour period or fraction thereof, as shown in Item 205. Contact the Director of Operations for availability.

Emergency berthing will be granted to vessels unable to transit the river due to draft or weather conditions. Such vessels will be charged fifty percent (50%) of the applicable dockage charge, as shown in Item 205.

All shifting and/or line handling expenses will be for the account of the vessel. The number of dockage periods billed, when lay status is involved, will not exceed the total number of dockage periods the vessel is on berth.

Rates are in U.S. dollars per 24 hour period unless otherwise provided.
